SUBJECT: Average Daily Populations of Davidson County Detention Facilities, AUGUST 2013

This report is a summary of the average daily populations of the Davidson County detention families for the month of AUGUST 2013.

Notes:

Locally sentenced felons are reported as those serving up to six years on a primary conviction, so this group does not include felony probation/parole violators, who have a separate classification. It does include a sub-group of locally sentenced felons who are serving "misdemeanor time" (sentenced to less than a year on a felony conviction).

For purposes of this report, inmates classified as "convicted DUI" have been included in the "convicted misdemeanants" group.

As instructed, no numbers for individual facilities are identified in this report with the exception of the locally sentenced felons being reported (on page 3 only) showing how those housed at the Metro Detention Facility compare with the total DCSO population of all classifications, including the locally sentenced felons at DCSO facilities.

Bound-over juveniles are no longer included with their specific charge class and are grouped separately.

Graphic displays of the data begin on the next page. The table on page 2 displays the raw numbers for the current month, along with the percentages of changes from the previous month.
